A JOURNEY OF SUCCESS

# GOLDARIO VISION

We envision to revolutionize the entire eco-cycle of the precious metal industry by utilizing emerging technologies, i.e., block chain, cryptography, smart contracts, AI, and Fintech.

We aim to create an ecosystem whereby we make it easy for individuals—whether typical consumers or HNIs— to invest in precious metals while also taking care of security, auditability, and liquidity.

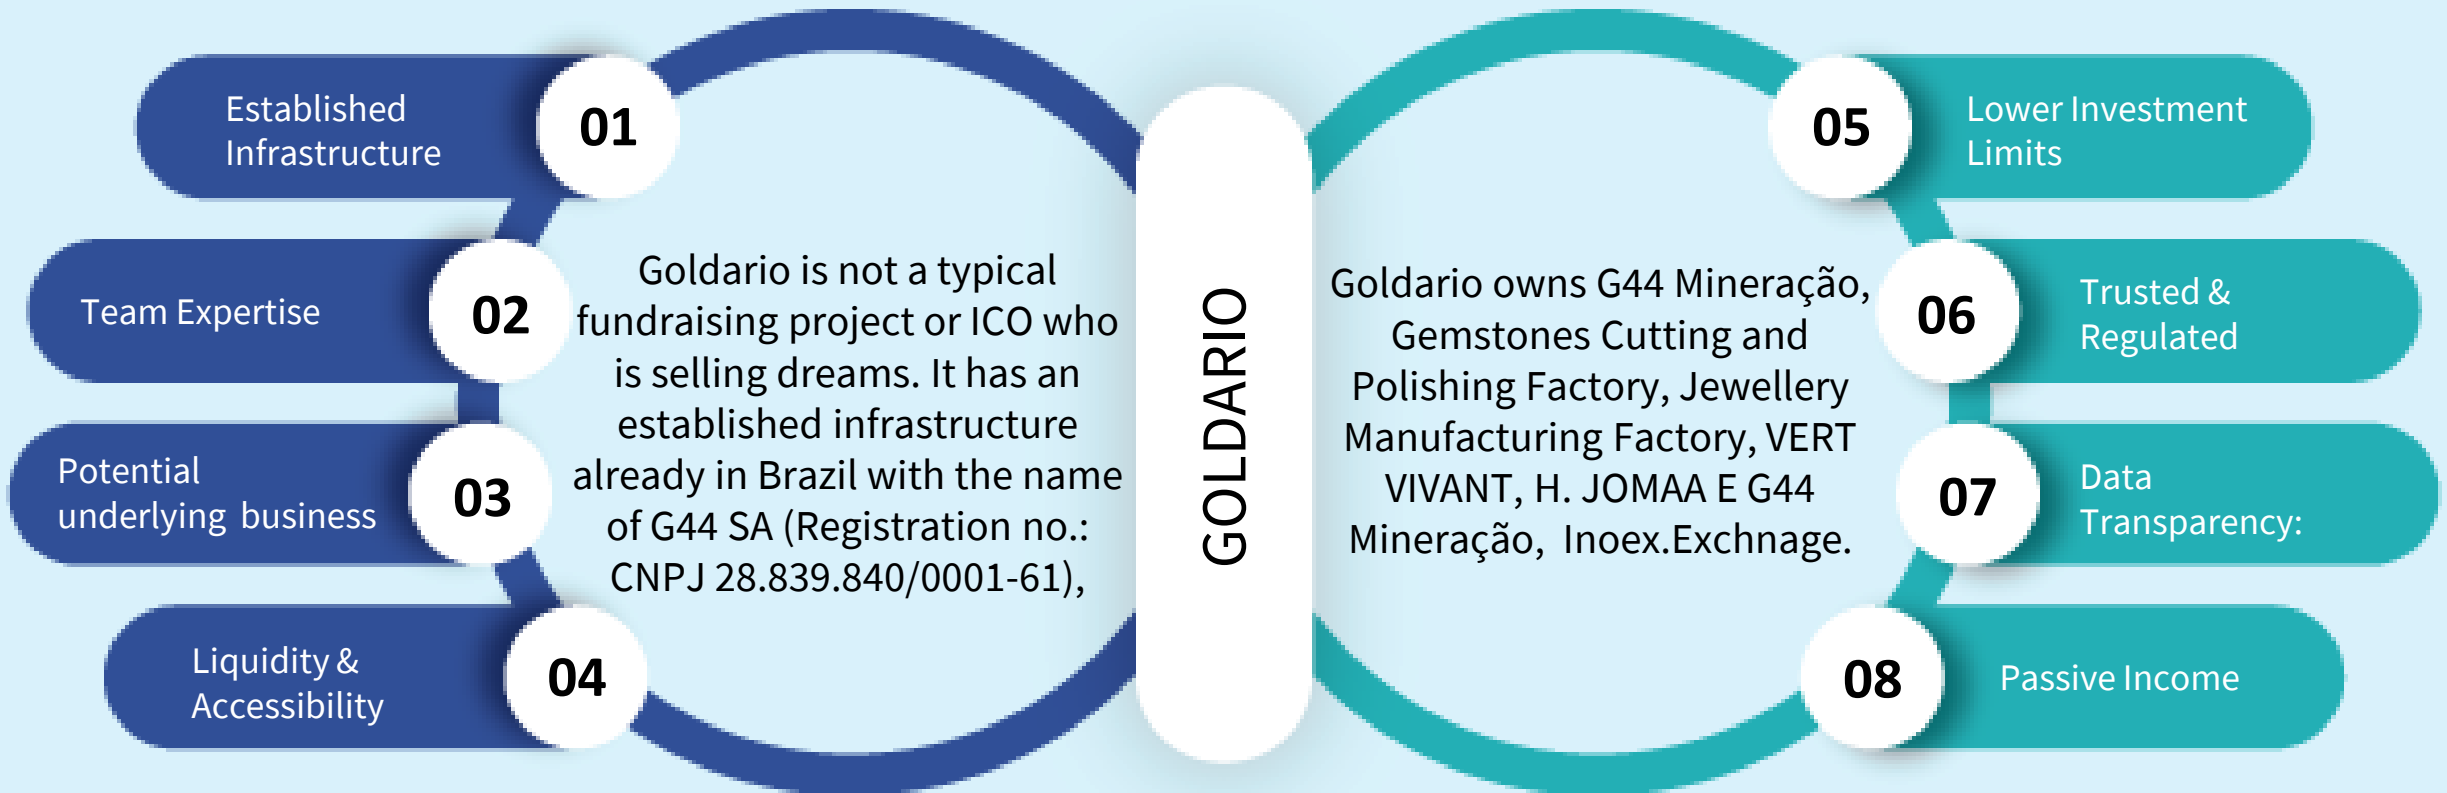

# GOLDARIO MISSION

Goldario aims to be the world's leading platform of choice for consumers and businesses dealing in the precious metals, stones and jewellery industry.

It strives to allow users to obtain and have entitlement over physical mines, jewellery production factories and jewellery retail businesses from across the world, and in doing so, create potential underlying asset backing to GLD Token.

# STANDOUT FEATURES

# HOW GOLDARIO WORKS?

Anyone — whether an individual or an institutional investor — can get access to the Goldario ecosystem by purchasing GLD Tokens, either during the token sale or via an exchange whereby GLD Token is listed.

## WHY GOLDARIO?

Goldario is the world's first-ever platform that strives to revolutionize the eco-cycle of mining of precious metals (gold), mining of precious stones (emeralds), jewellery manufacturing and retail business of jewellery.

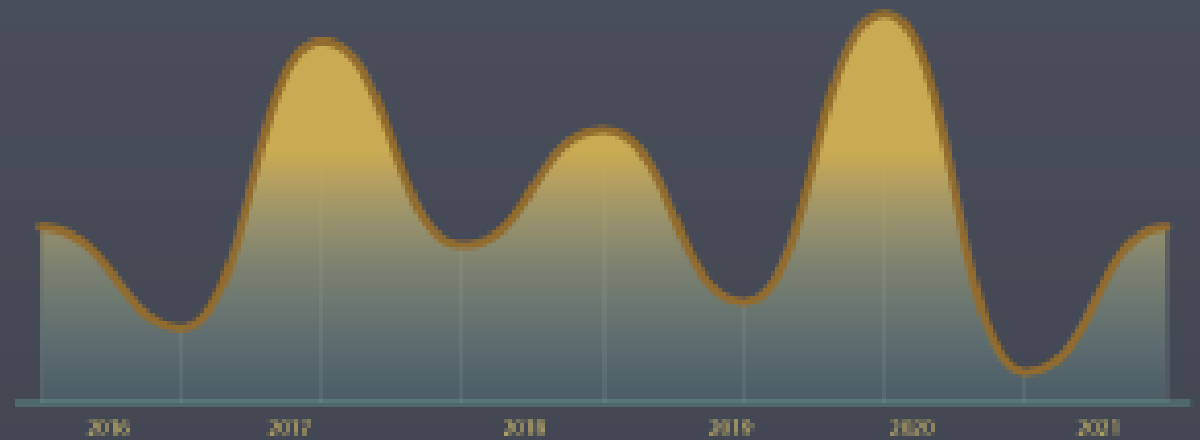

This financial instrument is a digitized share in gold and emerald mines, in-house jewellery production factories and jewellery retail businesses for the world market.

# HOW GOLDARIO EARN PROFITS?

The revenue generated from the retail business activities i.e. selling of respective precious metals and stones is captured by GLD Token and is proportionally divided among token holders against their positions.

This way, even a novice trader with a low investment minimum has got the option to enter into potential revenue generating underlying business.

# RETROSPECTIVE & GROWTH

G44 SA as a holding company manages all the businesses involved to produce beneficial results for its partners, investors and stakeholders.

# GOLD AND EMERALDS MINING

A close-up photograph of a hand holding a rough, faceted emerald stone. The stone is a vibrant green color and has a textured, crystalline surface. The hand is wearing a dark, textured glove. In the background, several other rough emerald stones are visible, some resting on a surface. The lighting is dramatic, highlighting the facets and color of the stones.

Gold mining is carried out with the company H. Jomaa Mineração, in Lourenço, in the district of Cidade Calçoene in Amapá, where the gold mined together with the extracted emerald stones are transformed into jewellery sold by the group.

# TRANSFORMING JEWELLERY IN RARE DETAILS

In 2019, we launched our jewellery store, Vert Vivant. The company produces and sells high-end jewellery at retail and through direct sales. Soon the first stores will be opened in two of the largest malls in the country. The project is already underway to build a 318 shops worldwide till 2023.

# BLOCK PROCESSORS

Goldario is your share in the world's digital economy. To distribute and bring this revolutionized product to the mass, we have developed a special and unique algorithm that is based on your proof of stake system. As a participant of this program, you will buy a number of Goldarios in a Set or Blocks from 125 to 8,000 GLD tokens. As an owner of a block, you have your proof of stake in the Goldario ecosystem, and you will automatically take part in the block processing algorithm, which will bring your position up and up when more and more people will use the system. Your efforts to bring more people into the system will create a snowball effect, and you will get quick results.

All bonuses are being distributed to the members based on new Token Sales with maximum benefits from bottom to top-level participants, using the unique algorithm design of the Goldario's Block Processing System, which is a Win-Win situation for all investors and promoters.

# ROAD MAP

## EXPLORE THE JOURNEY OF GOLDARIO

The business was planned and proposed in 2015 and the story began to be told since 2017 when the team that built and conceived INOEX, a cryptocurrency exchange.

Shortly thereafter, the opportunity emerges to expand the company's business in a new area:

**MINING.** An emerald mine in Campos Verdes, Goiás, and a shareholding in a gold mine in the north of the country, in the Lourenço district, in Calçoene.

# LOWER INVESTMENT LIMITS

Unlike traditional startups or early-stage companies, where entry for a person with low investment is almost impossible, Goldario through tokenization of commodities and its business models offers lower investment minimums.

## **LIQUIDITY & ACCESSIBILITY**

With trust full exchange of digital assets, Goldario provide users with the opportunity to easily liquidate, access and exchange precious commodities i.e. precious metals and stones through GLD Token, which is exchangeable in a crypto trading exchange and can also be used for peer to peer exchange of value.

Built as an ERC-20 token on the Ethereum blockchain, GLD Token can easily be moved or traded anywhere in the world, 24/7.

# ESTABLISHED INFRASTRUCTURE

Goldario is not a typical fundraising project or ICO who are selling dreams. It has an established infrastructure already in Brazil with the name of G44 SA (Registration no.: CNPJ 28.839.840/0001-61).

Whereby it owns Emerald Mines (G44 Mineração (Registration no.: CNPJ: 31.975.883/0001-89)), Gemstones Cutting and Polishing Factory, Jewellery Manufacturing Factory, Jewellery Retail Business VERT VIVANT (Registration no. CNPJ 34.461.941/0001-44) and H. JOMAA E G44 Mineração (Registration no.: CNPJ 30.033.381/0001-76) shares in a gold mine with a big sum of reserves. Moreover, it also owns Inoex.Exchnage (Crypto Trading/Crypto Exchange) (CNPJ: 31.548.911/0001-81).

## WHY SUPPORT GOLDARIO?

We believe that because of existing infrastructure i.e., regulatory compliance, already owned emerald mines, a jewellery factory, and retail business in U.A.E. and Brazil, and considering our team's expertise in the fintech and blockchain space, Goldario will gain a decisive advantage.

# TOKEN ALLOCATION

In light of the innovation and open market niche involved in launching this platform, Goldario benefits from first-mover advantage, and as it has an existing infrastructure, so this is not your traditional crowd-sale starting from scratch- it is not a startup that only can provide speculative value for its tokens, as you can see for yourself.

- Sale via Block Processor
- Bonus allocation in BP
- Sale Via Exchanges
- Discounted sale
- Bounty Programs

# FUNDS DISTRIBUTION PLAN

Expanding urbanization, changing lifestyles, growing e-commerce sales, rising presence of organized retail channels, growing number of premium product launches & synchronized distribution networks, etc., is projected to drive global precious metals, stones, & jewellery market during the forecast period
